SERVICE BROCHURE

With a focus on integrity, creativity and client collaborations, we deliver personalised design solutions that enhance everyday living and create environments where clients feel truly at home!

Welcome
TO RJP DESIGN & DÉCOR.

I'm Rosanna, the founder of RJP Design & Décor, established in 2004. It's a pleasure to have the opportunity to work with you.

My passion for interior design has always been driven by a desire to create spaces where people feel truly at home—spaces that bring happiness, comfort, and a deep sense of connection.

Your environment plays a significant role in how you experience life, and I believe it should be a reflection of who you are. Whether it's your home or workplace, it's essential that your space resonates with you, offering peace, security, and inspiration as you go about your daily activities.

Alongside my talented team, I'm committed to delivering exceptional design and decorating services throughout the Sunshine Coast and Brisbane. Drawing inspiration from various sources—architecture, travels, industry networks, and continuous learning—I bring a fresh and informed perspective to every project.

I'm excited to embark on this creative journey with you. Let's make your space something truly special!

Passion for what we do, seeing what we achieve
and the happiness it brings to our clients, is truly rewarding.

WHAT TO EXPECT

As each client's needs and projects are unique, we've put together this guide to help you understand what to expect when working with us.

Initial Consultation

Our first step is to meet with you, getting a sense of how you live and what you love. This understanding is crucial to our design process, allowing us to tailor our approach to your lifestyle and preferences. While we prefer the personal connection of an in-person meeting, we're also happy to arrange a virtual consultation via Zoom if that's more convenient.

Gathering Inspiration

You might already have a collection of images—whether from magazines, screenshots, photos, or Pinterest boards—that capture your design preferences. If you haven't started yet, no worries! You can begin anytime. Sharing these images with us, whether through Pinterest, texts, or any other way that's easy for you, helps us better understand your style and goals. The more visual inspiration you provide, the easier it is for us to translate your ideas into a beautiful design.

On the second appointment we will bring samples to help with final selections, look at colours and finishes, and discuss any changes.

PACKAGE THREE

The Signature Package.

Our most popular package is about engaging me to be by your side for the whole journey of renovating or *building.*

There are so many things to select, to think about and decisions to make – what better way is to have a confidant by your side that knows how to make it an enjoyable and rewarding journey to experience!

This package comes in two (2) tiers depending on your project:

TIER ONE

Tier One is for a kitchen or bathroom renovation where you are focused on design advice for layout, material selections and design concept through to documentation for this space.

TIER TWO

Tier Two is for a full house renovation or new build, where you want a design professional who will work with you to make decisions and ensure the project has that designer look that flows throughout the home.

Tier Two includes material selections and design concepts through to documentation, as well as managing the design outcome liaising with the trades and principal contractor.

PACKAGE FOUR

Styled and Set Package.

Let the fun begin with furnishing and styling your space to create the look you desire or feeling you want to *emanate!*

This package is ideal for a home or workplace refresh. Maybe you have moved into a new home or workplace, downsized or interstate/international transfer. Whatever the space we can elevate it to that next level!

We begin with an initial consultation to establish the brief and catalogue existing furniture and measure any spaces. We then work on digital mood boards of your new spaces and source unique pieces to present to you. We will then place orders on your behalf and style the spaces to finish.
